## DROP

Drop is a design brand specialising in luxury outdoor products: spa, fireplace, sauna and lodge. The first spas were sold in 2015. Today, Drop is available in over 20 countries.

Drop designs are inspired by the beautiful nature of Finland - land of a thousand lakes. All Drop products are meticulously crafted in Finland with the utmost attention to detail.

Drop designers:

Nikolai Ruola : spas

Sirena Kiviranta: sauna, lodge, fire

Award-winning Drop has gained international design recognitions: A'Design Award 2019 and 2024, Golden Wave 2022.

## DROP BRINGS

### 1. Wellbeing in everyday life

Drop wants to encourage everyone to take time for themselves, to relax and to practice healthy habits on a daily basis. A drop of luxury made for everyday life, not just for holidays or special occasions.

### 2. Beauty to your space

Like a well-designed piece of furniture, Drop designs enhance spaces without taking away from their character. The minimalistic design of Drop products appeals to architects, decorators and aesthetics, bringing a touch of beauty to any home.

### 3. Quality time

Less notifications and screens, more time together with family and friends. In today's hectic world uninterrupted moments like this are rare and should be cherished. Drop offers the perfect setting for quality time together.

### 4. Contrasts

From the cold North, to the warm South, Drop outdoor wellness designs can be used in every weather. Our outdoor spas are designed, made and tested in Finland, and we guarantee that they are made to endure versatile weather conditions.

## PRODUCTS

### 1. Drop Spa

Drop is an outdoor spa with a beautifully finished appearance that is ergonomic and easy to use. It offers true everyday luxury and can either be seamlessly integrated to any outdoor space, embedded in the terrace or stand alone, with stylish design cladding.

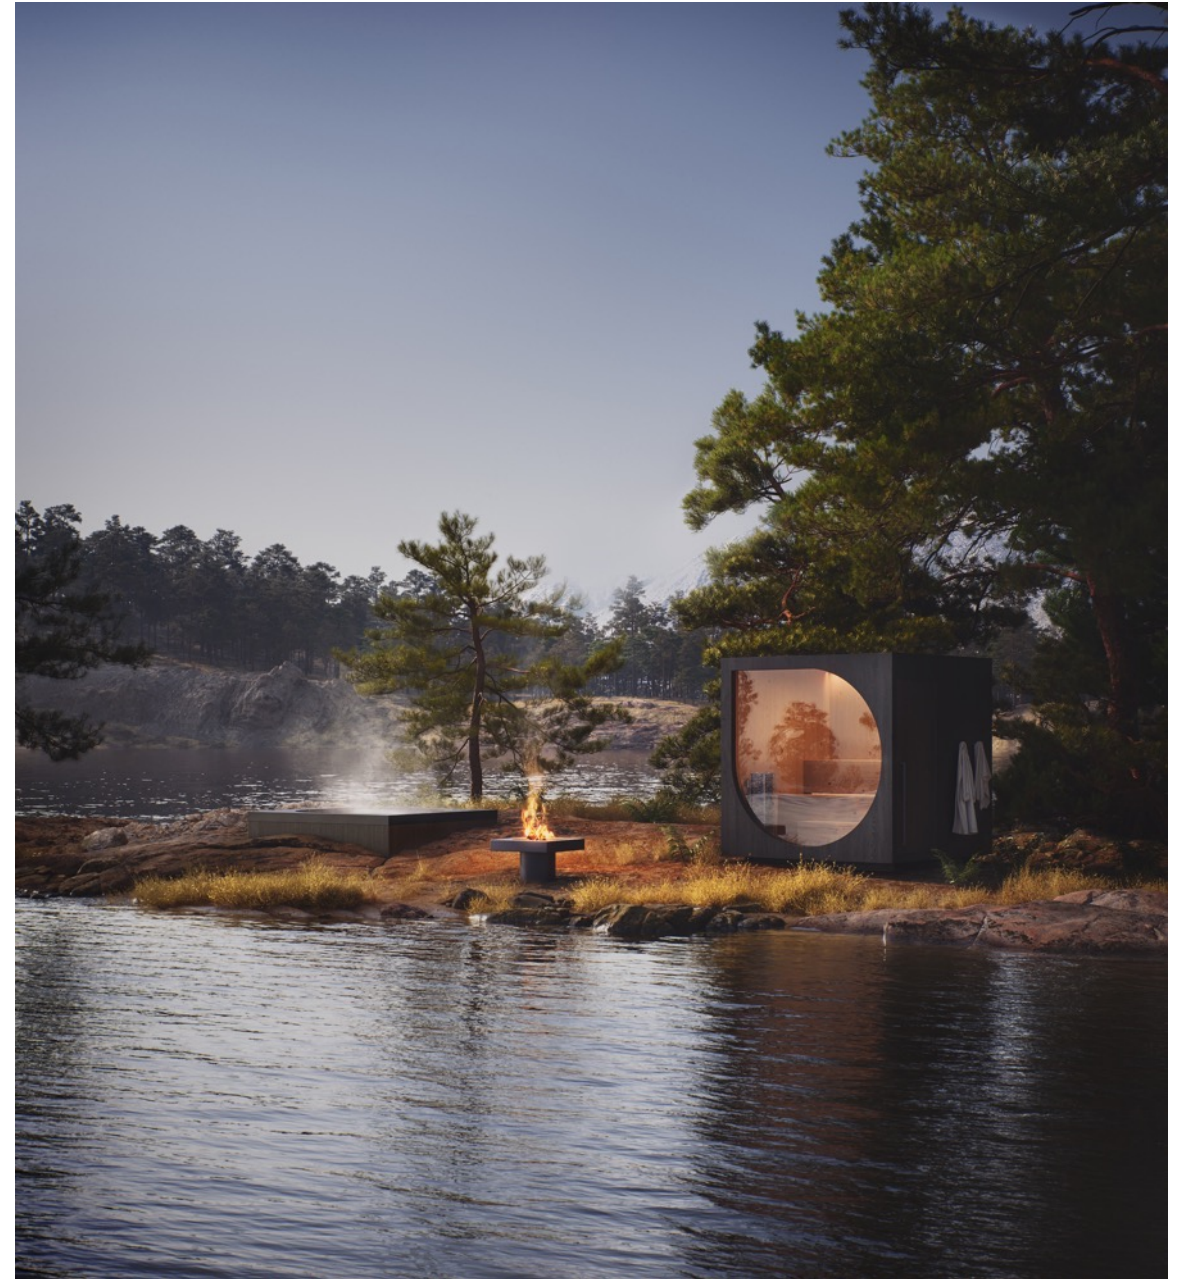

### 2. Drop Fire

This high-quality design fireplace, designed and handmade in Finland, is a true eye-catcher and an impressive design element for your patio or backyard. Drop Fire is uniquely versatile and can be used as a fireplace with wood or coal, with a separate bioethanol burner and as a table.

### 3. Drop Sauna & Lodge

Elevate your outdoor experience with the unparalleled beauty and sustainability of Drop Saunas and Drop Lodges, designed with genuine Finnish passion. The iconic drop shape serves as a captivating window, that frames the beautiful view.

Drop Lodge can be used according to your imagination - as a guesthouse, a relaxation room or a remote workspace.

## B2B SALES SUPPORT

### Materials

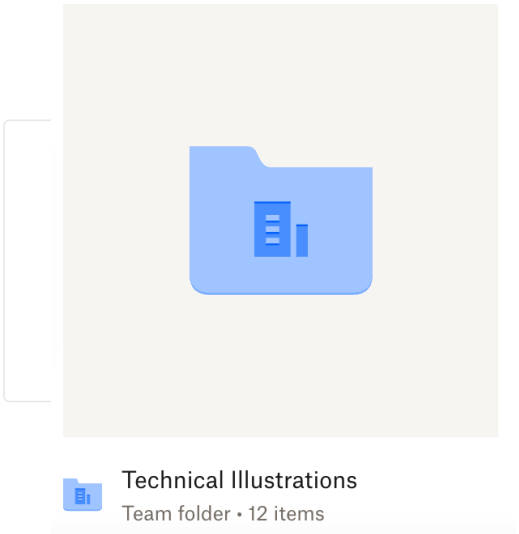

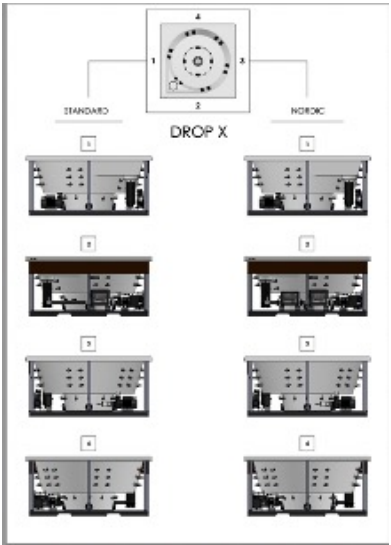

To help our B2B partners succeed, Drop has developed support functions for our dealer and distributor partners. From our image bank and upcoming portal, it is possible to easily access all technical documentation, product descriptions, documentation, warranty information, images and visuals to support offering and planning projects with customers, both private and professional.

### Financing

During 1H 2024, we are launching a financing option for our B2B partners in collaboration with Grenke AG. Our financing option will also be a significant tool for Drop dealers. It will make it easier to purchase stock and, for example build, your own showroom. The financing can also be used for our dealers' own B2B customers. The solution exists in each of the twenty countries where Drop is operating today

## DROP SPAS ARE

### 1. Functional

Drop combines design and function. Innovative, award-winning design and superior quality meet the highest of standards. The clever, functional design inside the spa complements the all-around cohesive concept.

### 2. Elegant

We want to bring beauty and luxury to your home with clean, simple and elegant lines. Inspired by nature, attention has been paid to even the smallest details. Drop is minimalistic and award-winning Nordic design at its best.

### 3. Convenient

Superior ease and comfort of use. This ergonomic spa delivers an unprecedented and luxurious wellness experience nestled in the comfort of your backyard or terrace. Drop is a user-friendly spa and easy for anyone to maintain.

### 4. Sustainable

Materials are sourced locally as much as possible and chosen from a durability aspect. All parts of the spa can be recycled, and some parts are made from recycled materials. Drop spas are energy efficient: All Drop spas have efficient isolation. The lockable, insulated cover saves energy keeping the loss of heat at minimum between baths. It also keeps the spa clean between each use.
